

Team BIG BOSS AUTO Racing

Another great month was celebrated by the team during April, having such good partners definitely inspires our talented drivers to produce such good results and expose our partners to such a high standard.

Wesbank Super Series

Our No.1 driver Devin Robertson showed what he was made of with another pole position and 2 race wins on the day stretching his championship lead to 29 points. For a change after qualifying up front he drew a 2nd and pole for the grid positions and once getting a good start of the grid he drove off into the distance finishing the first heat 4 seconds ahead of Kosie Weyers' and the second heat 8 seconds ahead of Kelvin Van Der Linde and Brian Morgan, this was just evidence of the good spirit and atmosphere in the team. "I am really enjoying this year and this positivity is helping my driving and results, this is going to be an awesome year."

The Rookie Drivers Dewald Brummer and Kyle Lawrence had a good weekend and are constantly closing the gap to the front runners. Dewald Brummer Qualified 10th (4th Rookie) and impressive point 8 of a second off pole position, with such a close field with only 1.2 seconds separating the first 20 drivers. The first heat Dewald Finished 9th (3rd rookie) with a very impressive pace and lap times quicker than a lot of the more experienced drivers and a race long battle with Brian Morgan, overall a very impressive race.

The second heat as a highly contested affair Dewald got helped off the track by one of the other drivers although he kept on putting in the times and enjoyed a tough battle and showed the depth of his talent Dewald finished 15th and 6th of the rookies, Dewald is looking forward to the next round at Phakisa which will be the first rack they will race at where he has already had the opportunity of doing some laps before the race event.

Kyle Lawrence Qualified 15th and heat one got off to a slow start but he pushed hard moving up 5 places in the first lap and had a tough race while still learning the track finishing 15th (6th rookie) Race 2 Kyle got his start right and had a better race keeping it in the action all the way through the race he ended 11th (4th rookie), overall a good weekend by the whole team and the feeling is very positive to the pace that our drivers have looking forward to the next outing at Phakisa on the 4th of June.

Super Saloons

Regional racing was on the same weekend at the Phakisa raceway, in the super saloon Justin Robertson took two first places in class with the BMW M3 e46 ensured he kept the lead in the B2 Championship.

Class C saw Susann Cockram took a 2nd in the first heat and a win in the second heat achieving a 2nd overall for the day.

In the Silver Cup Johan Krynaauw posted pole position and all was going well till he picked up an engine noise which saw him retire for the day, pity as a win was well within his reach, The Yokohama semi's where definitely an advantage to the handling of the car.

George Bezuidenhout in the modified production cars posted an impressive time to claim pole position; he suffered some clutch problems during the day but still finished 3rd for the day

At both events after various of the classes 2nd heats the team handed out energy drinks to the competing drivers which was very well received by all of the competitors thank you to our energy drink sponsors
